

## MOORLINK CHAIN CLAMP

The MoorLink Chain Clamps are specially designed clamps developed to fit surface or sub-surface buoyancy to mooring chain of any diameter. The clamps are cast in high-grade steel, heat treated for correct material characteristics and finally machined for perfect fit. A special type and hardness of Nitril rubber is then vulcanised to the inside of the steel halves, avoiding steel to steel contact between chain and clamp.

Type	76
A (mm)	100
B (mm)	130
C (mm)	220
D (mm)	254
E (mm)	342
F (mm)	345
G (mm)	184
H (mm)	80
L (mm)	760

All dimensions are approximate
